► Personal Injury

If you have been injured or suffered financial loss as a result of an accident that was not wholly your fault, you may be entitled to compensation. Our personal injury specialists have a huge amount of experience across a wide range of cases, including:

- Road Traffic Accidents
- Accidents at Work
- Slips and Trips
- Sports Injuries
- Defective Products
- Holiday Accidents
- Animal Attacks

There is no charge for the first interview and we can tell you if your case for compensation is worth pursuing. We will make sure that you will receive 100% of your compensation and, whether you win or lose, our service will not cost you a penny.

We will assess the strengths and weaknesses of your claim and build the strongest case possible. We will plan a clear course of action that will minimise any uncertainty and produce the best resolution of your case in the shortest time. However, this will depend on the complexity of your claim, the extent of the expert evidence needed and when your medical condition is stabilised because we must be sure that your injury will not cause more problems for you later.

Call us on 0800 043 0003 to discuss your claim.

► Conveyancing

Property transactions can be complex and time consuming. Families and businesses face problems, opportunities and, often, tight time schedules. Our aim is to identify what is required legally and how best to achieve the outcome you desire and complete the deal on the best terms.

Whether you are buying, renting or selling a family home or commercial premises, we provide a friendly and competitively priced service. If you are not familiar with north London, we have the legal expertise and local contacts to provide practical and informed advice before you enter into a binding agreement or make an expensive commitment.

► Immigration

If you are planning to come to the UK to work, study or join your family or you are an employer planning to hire an overseas national, we will tell you about the legal requirements, eligibility issues and the documentation you will need. Additionally, we can tell you how long the process is likely to take and explain the other matters which might need attending to in order to make the immigration process run smoothly and without delay. We have particular experience of advising Turkish nationals coming to the UK under the Ankara Agreement.

- Marriage and bringing families together
- Ankara Agreement applications
